WORK EXPERIENCE

- **GenAI Powered Data Analytics Job Simulation** - [Certificate](#)
 - Exploratory data analysis and risk profiling
 - Predicted delinquency with AI
 - Business report and data storytelling for collections strategy
 - Implementing an AI-driven collections strategy

TECHNICAL SKILLS

BI & Visualization Tools: Microsoft Power BI, MS Excel (Pivot Tables, Charts, VLOOKUP, IF formulas)

Database & Querying: SQL (SELECT, JOIN, GROUP BY, Sub queries, Aggregate Functions), MySQL

Programming: Python (pandas, NumPy,), basic data wrangling

Productivity Tools: MS Office Suite (Word, Excel, PowerPoint), Google Sheets

Developer Tools: Github, VS Code, AI Tools

Soft Skills: Analytical thinking, Attention to detail, Problem solving, Communication

PROJECTS

AI-Powered Dark Store Demand Intelligence System

[GitHub](#)

April 2026- May 2026

- Built an operational analytics dashboard using SQL and Power BI to analyze quick commerce order data across multiple delivery areas.
- Performed demand analysis, stock out tracking, and delivery performance evaluation using SQL queries and interactive visualizations.
- Integrated AI-generated business insights and recommendations to improve inventory planning and operational decision-making.
- Developed KPI dashboards for top-selling products, high-demand areas, stock availability, and delivery efficiency.

Future Proof AI – Career Intelligence Platform

[GitHub](#)

April 2026-May 2026

- Developed a career intelligence platform using SQL and Power BI.
- Analyzed 300+ career records to assess AI automation risk and future demand.
- Built interactive dashboards for salary, AI risk, demand growth, and career resilience analysis.
- Generated data-driven insights to support future career planning.

EDUCATION

Bachelor of Technology (B.Tech) - Electronics and Communication Engineering

2022 – 2026 (Final Year)

ABES Engineering College, Ghaziabad, Uttar Pradesh

ACHIEVEMENTS & ACTIVITIES

- Completed Power BI end-to-end project independently, from data connection to published interactive dashboard
- Maintained strong academic record throughout B.Tech with consistent performance in mathematics and programming subjects
